## **Flip&Movie project Training of the coordination group**

Pescara, 6/7 October 2015

# INTRODUCTION

A team of 19 people headed by the school director, Mrs Annarita Bini, including teachers from different schools under the main institution "IC Pescara 8" and the administrative staff, met for a specific intensive training as START UP moment of the project "Flip&Movie", a strategic partnership "school to school" approved in 2015 by the Italian National Agency under the Erasmus Plus Programme.

# FLIP&MOVIE THE PROJECT

## IN BRIEF

The project Flip&Movie has the aims of joining and integrating the present-day necessity of better utilizing the ICT and of encouraging in young people and in the teachers the creativity, the innovation and a European dimension of learning. It arises from the need of a literacy in the mother- tongue and in foreign languages in order to promote the increase of communication skills that imply the textual, fluent, pragmatic, sociolinguistic, strategic competence in coherence with the principles of an active citizenship and with the objectives ET 2020. The project intends that children pursue the media literacy: knowledge acquisition, ability and required competences in order to use and to interpret media, a critical literacy that involves also analysis, valuation competence and critical consideration.

This is a project that wants to come out from classical, national ways of teaching and wants to open both partner schools and local community where schools are settled ,made of networks,contacts,families and institution, to the internationalization and modernization of the school.

## 3 MAIN INTELLECTUAL OUTPUTS

training kit, collection of stories coming from all European countries, creation of an APP for children, interactive documentary, quarterly newsletter.
